Jira, Trello

PROFESSIONAL EXPERIENCE

Software Developer | Touch Logic Technologies Dec 2021 - Present

- Developed multiple products using HTML, CSS, Bootstrap, JavaScript, jQuery, Symfony, and Laravel.
- Built RESTful APIs and integrated third-party services (Google, Facebook, Payment Gateways, WhatsApp).
- Strong understanding of MVC design patterns and best practices.
- Participated in Agile development, including daily scrums, sprint planning, testing, and bug fixes.
- Configured and maintained AWS EC2 instances and S3 bucket setup for cloud deployment.

Software Developer Trainee | Makinus Software Solutions June 2021 - Dec 2021

- Built a Single Page Application (SPA) using HTML, CSS, and JavaScript (jQuery).
- Developed an e-commerce web application with Java Spring MVC, handling database structures, services, and APIs.
- Worked on SQL and MySQL database management, optimizing queries for better performance.

EDUCATION

Master of Computer Science

Manonmaniam Sundaranar University (2019 – 2021)

Bachelor of Computer Science

Sadakathullah Appa College (2016 – 2019)

PROJECT HIGHLIGHTS

- **Social Blazer:** Built a unified dashboard for managing multiple social media accounts (Facebook, Instagram, LinkedIn, YouTube, Pinterest). Enabled post creation, scheduling, and viewing analytics across all platforms.
- **Site Blazer:** Developed a platform enabling customers to create websites within minutes using a WordPress and WooCommerce builder. Provided free domains and hosted customer websites on AWS EC2 instances.

ADDITIONAL INFORMATION

- **Languages:** English, Tamil.
- **Certifications:** Programming in HTML5 with JavaScript and CSS3, Introduction to Research.
- **Awards/Activities:** Best Employee Award – Jan 2025, Individual Extra Miler Award – Apr 2024, Super Squad of the Month – Jun 2023
