SUMMARY

I am a creative and detail-oriented frontend developer with a strong passion for building user-friendly interfaces. With 2 years of experience, I specialize in HTML, CSS, JavaScript, and modern frameworks like ReactJS. I thrive on delivering engaging digital experiences and collaborate effectively in development teams.

EXPERIENCE

Software Developer

ITech India Pvt Ltd

⌚ 05/2022 - 01/1970 📍 Chennai

ITech India Pvt Ltd specializes in software solutions, focusing on web and backend applications.

- Developed a user-friendly USA visa application platform using React for the interface and Redux for state management.
- Styled with CSS and SCSS, and enhanced the design with Material-UI (MUI) components.
- Integrated Hathway for secure payment processing, ensuring a smooth and efficient user experience throughout the application process.
- Developed a feature within the USA Visa Application Platform that enables users to upload multiple documents simultaneously.
- Implemented a solution to address and rectify issues that caused visa rejections.
